

Provider eClaims

**eClaims makes it easy for Healthcare Providers
to submit insurance claims on your behalf**

It's convenient and free

Your healthcare professional bills the insurance company directly and the paperwork is taken care of for you, just like when you go to the pharmacy or the dentist.

eClaims can be submitted through either the RWAM Provider Claims Service portal or through TELUS Health. There are no fees for you or your healthcare professional – all they have to do is register online.
